## INSTRUCTIONS

### Instructions For Setup

- Place the Console Dock onto a clean, dry surface.
- Place a compatible gaming device into the console slot and lean against the backrest.
- Insert the Type-C cable on the Console Dock into the gaming device's charging port.
- Insert one end of a HDMI cable into the Console Dock HDMI port, and connect the other end to a monitor, TV or projector.
- To utilise a wired internet connection, plug an ethernet cable into the RJ45 port on the side of the Console Dock.
- Attach the gaming device's power supply to the power delivery port on the Console Dock.

### Instructions For Use

- Power on your TV, monitor or projector and ensure it is set to the correct HDMI input. The gaming device will automatically display on the visual output device.
- The Console Dock is capable of fast charging the gaming device if a suitable charger is used. The gaming device's official charger is recommended.
- The 3.0 USB Ports can be utilised for gaming controllers, mice, keyboards and other accessories.
- The Gigabit Ethernet Chip supports 10M/100M/1000M ethernet access. Connecting the Console Dock using an ethernet cable provides a more stable internet connection to the gaming device.
