# PS5 DUAL CHARGING STAND

## INSTRUCTIONS

The Powerwave PS5 Dual Charging Stand conveniently charges two PlayStation™ DualSense controllers simultaneously. Charge your controllers in between gaming sessions so you never miss a moment.

### HOW TO USE:

1. Plug in the supplied USB cable into a USB port or compatible power adapter.

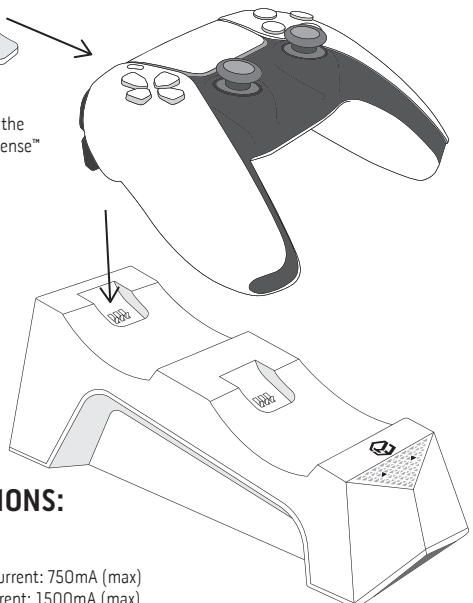

2. The two LED indicators on the charging dock will light up at the same time and perform a power check. When the LED lights turn off the dock is receiving power correctly.

3. Plug in the controller adapters into the Type-C port in the top of your DualSense™ controller.

4. Slide the controller into the charging stand ensuring the adapter lines up with the adapter groove. The corresponding LED indicator will light up red showing that the controller is charging.

5. When the LED indicator light turns blue charging is complete.

### TECHNICAL SPECIFICATIONS:

- Input voltage: DC5V±0.25V
- Input current: DC 1.5A (max)
- Single group conductive charging current: 750mA (max)
- Dual group conductive charging current: 1500mA (max)
- Contact charging output voltage: no load 4.8~5.2V; load 4.6~5.1V (with battery installed)

### PRODUCT CARE:

- Clean the charging station with a soft dry cloth. Do not use water, alcohol or detergent.
- Keep out of direct sunlight.
- Do not attempt to repair or take apart the charging stand.
- If the charging stand or adapters is immersed in water, damaged or broken stop using immediately.
- Keep out of reach of children.
