SLIMLINE CRYSTAL CASE

INSTRUCTIONS

HOW TO INSTALL JOYCON PROTECTORS

1. If attached, carefully separate the front and back protectors from each other.
2. If attached, remove the Joycon Controllers from the Switch Console.
3. Use a soft cloth to wipe the insides of the protector and your Joycons to remove any dust or dirt.
4. Place the Nintendo Switch Joycons into the back halves of the protectors.
5. Place the front halves of the protectors on top of the Joycons, carefully aligning each of the 4 clips and pushing gently into place. Do not apply too much force or you may cause damage to the clips and protectors.
6. To remove, reverse the above process.

HOW TO INSTALL CONSOLE PROTECTOR

1. If attached, remove the Joycon Controllers from the Switch Console.
2. Use a soft cloth to wipe the insides of the protector and the back of the Switch Console to remove any dust or dirt.
3. Align the bottom of the Switch Console to the bottom of the Protector and slide into place.
4. Gently push the top of the Switch Console into the top of the Protector until it is snugly in place.
5. To remove, reverse the above process.
