FPS AIM ASSIST PACK

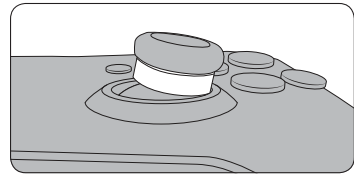

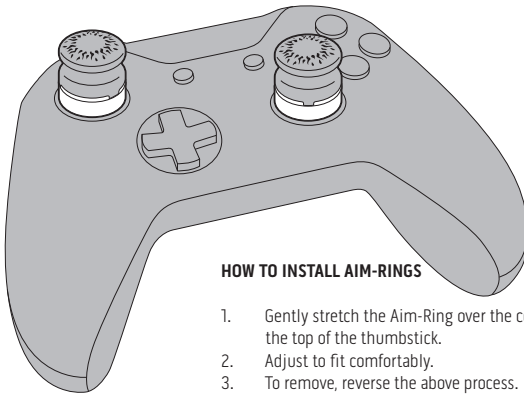

INSTRUCTIONS

This pack includes

- 2 x Thumb Grip Extenders made from ABS and TPE
- 2 x Hard Aim-Rings for High Resistance made from EVA
- 2 x Normal Aim-Rings for Medium Resistance made from Silicon Sponge
- 2 x Soft Aim-Rings for Low Resistance made from Sponge

OVERVIEW

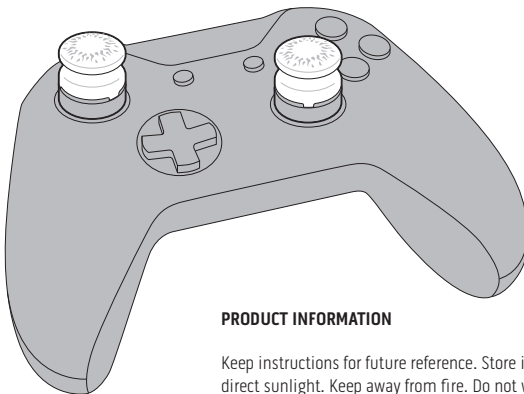

The Powerwave Xbox One FPS Aim Assist Pack will give you the competitive edge in gaming with the ability to improve aiming stability and accuracy. Choose from Hard, Normal or Soft Aim-Rings to customise your Xbox One controller. For even more customisation add on the concave design Thumb Grip Extenders for enhanced grip and range by 10mm.

HOW TO INSTALL AIM-RINGS

1. Gently stretch the Aim-Ring over the controller thumbstick until the ring slides over and under the top of the thumbstick.
2. Adjust to fit comfortably.
3. To remove, reverse the above process.

Please note pulling and stretching with too much force may damage the Aim-Rings. When using the Hard or Normal Aim-Rings full movement may be restricted. If gameplay is affected remove the Aim-Rings.

HOW TO INSTALL THUMB GRIP EXTENDERS

1. Position the Thumb Grip Extenders over the top of the controller thumbstick.
2. Push down gently until the grip is attached.
3. To remove, reverse the above process.

Please note pushing and pulling with too much force may cause damage to your controller.

PRODUCT INFORMATION
